Portfolio

ABOUT ME

- Mostly building MERN stack-based applications that are used for my own needs, where I work with Node.js, Express.js, and MongoDB.
- Developed multiple full-stack projects, including a Kanban board platform with an offline sync feature.
- Practiced multiple backend-based projects built on language-free backend principles.
- Seeking opportunities to collaborate on ideas that sound impossible at first.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+)
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Context API, Redux Toolkit, SCSS
- **Backend:** Node.js, Express.js, REST APIs, JWT, OAuth, GenAI APIs
- **Database:** MongoDB, Mongoose, Aggregation, Indexing, localStorage
- **Tools:** Git, GitHub, Postman, Vercel, n8n

EDUCATION

- **B.Tech in Computer Science and Engineering** Aug 2024 – June 2028
Uttaranchal University, Dehradun

PROJECTS

- **Snipp-Board**
 - MERN-based application for storing thousands of code snippets and boilerplate code, helping reduce repetitive coding work.
 - Implemented offline syncing to allow users to access and manage snippets while offline.
 - Created secure APIs for snippet creation, modification, and controlled updates using backend workflow standards.
 - Built and improved frontend interfaces for snippet management.
- **DEEP – Packet Inspection**
 - Developed a Deep Packet Inspection system to analyze network packets and make decisions based on IP, port, protocol, and SNI information.
 - Implemented connection-aware packet processing where the first packet of a connection is analyzed for SNI detection and subsequent packets can be associated with the same connection.
 - Designed a multithreaded load-balancing approach using hashing to distribute packet-processing workloads across worker threads.
 - Used hash-based distribution to maintain consistent packet routing while processing multiple network connections concurrently.

EXPERIENCE

- **Call of Duty: Mobile – Co-Leader & Strategic Head** 2024 – Sep 2026
Call of Duty: Warzone – Part-time India – Remote
 - Served as a Co-Leader and Strategic Head in a competitive Call of Duty: Mobile team, managing and coordinating 100+ players.
 - strategic planning for close-to-mid-range engagements, particularly in Head-to-Head and Search & Destroy game modes Provided tactical guidance during competitive matches positioning, map control, communication.
 - Developed match strategies and counter-strategies based on opponents' playstyles and gameplay patterns.
 - Provided real-time tactical guidance during competitive matches.
 - Gained experience competing alongside players from GodLike Esports (GODL) and learned from a higher-level.
- **Executive Member – UIT Discipline Committee** Apr 2026 – Present
Discipline Committee – Full-time India

CERTIFICATIONS

- **Full Stack MERN Development** 2026
Sheryians Coding School – Bhopal, MP
